LIST OF APPENDIX FIGURES¹

Figures 1a – 1h. I-5/Stewart Street Interchange LOS Analysis Summary.....

- Figures 2a – 2h. I-5/Mercer Street Interchange LOS Analysis Summary
- Figures 3a – 3h. SR 520/Harvard Ave./Roanoke St. Interchange LOS Analysis Summary
- Figures 4a – 4j. SR 520/Montlake Boulevard Interchange LOS Analysis Summary.....
- Figures 5a – 5j. SR 520/Lake Washington Boulevard Interchange LOS Analysis Summary.....
- Figures 6a – 6h. SR 520/84th Avenue NE Interchange LOS Analysis Summary.....
- Figures 7a – 7h. SR 520/92nd Avenue NE Interchange LOS Analysis Summary
- Figures 8a – 8h. SR 520/Bellevue Way/108th Avenue NE Interchange LOS Analysis Summary..
- Figures 9a – 9h. SR 520/124th Avenue NE Interchange LOS Analysis Summary.....
- Figures 10a – 10h. SR 520/148th Avenue NE Interchange LOS Analysis Summary.....
- Figures 11a – 11h. SR 520/NE 40th Street/NE 51st Street Interchange LOS Analysis Summary ..
- Figures 12a – 12h. SR 520/W. Lake Sammamish Parkway Interchange LOS Analysis Summary
- Figures 13a – 13h. SR 520/Redmond Way Interchange LOS Analysis Summary.....
- Figures 14a – 14h. SR 520/Avondale Way Interchange LOS Analysis Summary.....

¹ Except for the SR 520/Montlake Boulevard and Lake Washington Boulevard Interchanges, each set of appendix figures is organized as shown below. Figures 4i, 4j, 5i and 5j for the Montlake Boulevard and Lake Washington Boulevard interchanges include a design option for the 2030 6-Lane Alternative affecting both interchanges.

a = Existing AM Peak Hour LOS

b = Existing PM Peak Hour LOS

c = 2030 No Action Alternative AM Peak Hour LOS

d = 2030 No Action Alternative PM Peak Hour LOS

e = 2030 6-Lane Build Alternative AM Peak Hour LOS

f = 2030 6-Lane Build Alternative PM Peak Hour LOS

g = 2030 8-Lane Build Alternative AM Peak Hour LOS

h = 2030 8-Lane Build Alternative PM Peak Hour LOS

- Figures 6a – 6h. SR 520/84th Avenue NE Interchange LOS Analysis Summary.....
- Figures 7a – 7h. SR 520/92nd Avenue NE Interchange LOS Analysis Summary
- Figures 8a – 8h. SR 520/Bellevue Way/108th Avenue NE Interchange LOS Analysis Summary..
- Figures 9a – 9h. SR 520/124th Avenue NE Interchange LOS Analysis Summary.....
- Figures 10a – 10h. SR 520/148th Avenue NE Interchange LOS Analysis Summary.....
- Figures 11a – 11h. SR 520/NE 40th Street/NE 51st Street Interchange LOS Analysis Summary ..
- Figures 12a – 12h. SR 520/W. Lake Sammamish Parkway Interchange LOS Analysis Summary
- Figures 13a – 13h. SR 520/Redmond Way Interchange LOS Analysis Summary.....

Figures 14a – 14h. SR 520/Avondale Way Interchange LOS Analysis Summary.....

¹ Except for the SR 520/Montlake Boulevard and Lake Washington Boulevard Interchanges, each set of appendix figures is organized as shown below. Figures 4i, 4j, 5i and 5j for the Montlake Boulevard and Lake Washington Boulevard interchanges include a design option for the 2030 6-Lane Alternative affecting both interchanges.

a = Existing AM Peak Hour LOS

b = Existing PM Peak Hour LOS

c = 2030 No Action Alternative AM Peak Hour LOS

d = 2030 No Action Alternative PM Peak Hour LOS

e = 2030 6-Lane Build Alternative AM Peak Hour LOS

f = 2030 6-Lane Build Alternative PM Peak Hour LOS

g = 2030 8-Lane Build Alternative AM Peak Hour LOS

h = 2030 8-Lane Build Alternative PM Peak Hour LOS

Trans-Lake Washington Project

LIST OF APPENDIX FIGURES¹

- Figures 1a – 1h. I-5/Stewart Street Interchange LOS Analysis Summary
- Figures 2a – 2h. I-5/Mercer Street Interchange LOS Analysis Summary
- Figures 3a – 3h. SR 520/Harvard Ave./Roanoke St. Interchange LOS Analysis Summary
- Figures 4a – 4j. SR 520/Montlake Boulevard Interchange LOS Analysis Summary.....
- Figures 5a – 5j. SR 520/Lake Washington Boulevard Interchange LOS Analysis Summary.....
- Figures 6a – 6h. SR 520/84th Avenue NE Interchange LOS Analysis Summary.....
- Figures 7a – 7h. SR 520/92nd Avenue NE Interchange LOS Analysis Summary
- Figures 8a – 8h. SR 520/Bellevue Way/108th Avenue NE Interchange LOS Analysis Summary..
